Fine Crops of Tobacco

can be raised if the ground is properly prepared before setting out the plants, and you liberally

Use
Virginia=Carolina
High-Grade
Fertilizers

Then you should nourish the crop at frequent intervals during the growing period with the same plant food. Work well, being careful to feed the crop with only Virginia-Carolina Fertilizers, made especially for tobacco. This will insure a big crop of fine, high-grade tobacco that will yield big money.

Profitable farming is fully explained in our new free FARMERS' YEAR BOOK, or almanac, and it is yours for the asking.

1915 Norfolk and Portsmouth City Directory

PORTSMOUTH (Norfolk County) VIRGINIA.

COUNTY SEAT.

From seventh to fourth city in ten years.

Portsmouth, fourth city, occupies the western or mainland side of the harbor of Norfolk-Portsmouth, where the larger rail systems of the South have their terminals. Norfolk which lies just across the harbor is connected by a commodious steam ferry which runs at 10 minute intervals, also by railroad ferries. While commercially Portsmouth is Norfolk's principal feeder, yet it has grown to be a city of 37,569 and boasts of 57 manufacturing industries. Founded in 1763 it has recently taken on an air of progress, making it to-day the fourth city in size and has the proud distinction of having lead in growth her sister cities, with a percentage of 90.5, according to U. S. Census figures. It is the county seat of Norfolk County and was named for the City in England. One of its most notable features is the Navy Yard, known officially as the Norfolk Navy Yard, although situated within seven blocks of the heart of the city. Built by the British in the 18th century, it was purchased by the U. S., in 1801. Burned by the Federals in 1861, it was rebuilt by the Confederates and held by them until Portsmouth was reoccupied by the Federals near the close of the war. Since this spot has been used for ship-building purposes, five flags have been unfurled over its destinies, viz.: British, Colonies, Virginia, Confederate and United States. It is now the largest in the country, occupies 350 acres, and has two enormous dry docks of granite and one of timber. In addition to ship repairing and construction of war vessels, this station has been augmented by a Training Station for enlisted men covering about 50 acres, a Naval Magazine and a twenty acre tract especially equipped with buildings, drill grounds, etc., for the U. S. Marine Corps. This Station is the distributing point for men and stores to our outlying possessions, the central rendezvous for the Marine Corps and headquarters for sub-marine torpedo boats and other torpedo boat craft. The Government's investments in this section will total approximately \$20,000,000, with pay roll expenditures, and material purchases, of possibly \$5,000,000 annually. The U. S. Naval Hospital also within the city limits stands in a park of 80 acres; was founded 1828. In the same park is the Naval Hospital cemetery containing a monument unveiled by President Roosevelt in 1907. In Cedar Grove cemetery repose the remains of Naval Constructor John L. Porter, who designed and built the Merrimac, and Commodore Stephen Decatur, U. S. N. Grover Cleveland lived in this city when his father was pastor of the First Presbyterian Church. There is a tablet in the pavement on High Street commemorating the visit of La Layette in 1825. The city has $1\frac{1}{2}$ miles of water front, is clean, well sewered, has good water and has one of the lowest death rates in the country. Its chief trade is garden truck, products of the factories, fish, oysters and other sea food, together with shipping both foreign and domestic. The seven trunk lines centering here are connected by a Belt Line railroad five miles in length, passing through an ideal manufacturing zone. A recent census or inventory of the city conducted by this Association establishes the following facts:

Area 2.4 square miles, 1,680 acres.
Land 1,545.0; water 135.0 acres.

DIRECTORY

The Greatest Value in

Advertising is that which is presented at the time one is ready to buy; the classifications in the City Directory are the very best forms of advertising, because they reach the buyer when he is seeking the name and address of some business house from whom he may buy.

BE UP-TO-DATE

AND have The City Directory where you
can put your hand on it--consult it and
save yourself time and money--it will cost
you only about two cents a day. : : :
